Milkman's Mission

There's a new home for Toronto's Hits and Toronto's Throwbacks

2017-11-06

Newcap Radio is proud to unveil the evolution of 93-5 The Move: Toronto's Hits. Toronto's Throwbacks.

Today, we're expanding our playlist to include contemporary music which has dominated streaming service charts but is not represented on Toronto Radio.

93-5 The Move will feature artists like Kendrick Lamar, J.Cole, Yo Gotti, Khalid, Post Malone, Migos, and French Montana.

In addition, our incredible home-grown talent will be prominently featured on our airwaves, including:

Drake, The Weeknd, Tory Lanez, PARTYNEXTDOOR, Jessie Reyez and Alessia Cara as well as international icons like Rihanna, Jay Z, Beyoncé and Eminem.

Since launching in 2016, 93-5 The Move has played all the best throwbacks from the 90s to now. These are the great songs that became a soundtrack for a generation which they seldom get to hear on the radio. The best of the best throwbacks will continue to complement our contemporary playlist.
